The following action is in response to the amendment received October 2, 2006.

Allowable Subject Matter

Claims 5-10 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art of record shows or renders obvious a mobile vehicle as defined in claims 5 and 10 wherein at vehicle start-up the starting position and the end position of the inch pedal are allocated in the electronic control unit to the characteristic line of a 0% and 100% inch effect to eliminate mechanical adjustment of the distance sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The proposed new sheet of drawing, submitted October 2, 2006, is approved by the examiner. Entry of the added figure overcomes the objections to the drawing set

forth in the previous Office action. Accordingly, the objections to the drawings are withdrawn.

The response of October 2, 2006 indicates that copies of missing citations and a form PTO/SB/08a were enclosed. These items are not in the file. The previous Office action indicated that the two citations in question were lined through because complete copies of the documents were not provided. The file only includes abstracts for the documents. The abstracts supplied by applicant have been listed on the attached PTO-892.

The amendments to the specification overcome the objection set forth in the previous Office action. Accordingly, the objection is withdrawn.

The claims as amended are seen to distinguish over the prior art of record for the reason set forth above under "Reasons for Allowance". Accordingly, the rejection of claims 5-8 under 35 USC 102(b) set forth in the previous Office action is withdrawn.
